

Module 1: Assessment Task

DS-ML - Data Science & Machine Learning

*Instructions: Answer the following questions based on the Module 1 lessons.
Provide concise and accurate explanations.*

1. Which field is considered the 'multidisciplinary' intersection of statistics, programming, and domain knowledge?

2. In the 'nested' model, is Deep Learning inside or outside of Machine Learning?

3. What is the standard distribution used to install Python and manage data science packages?

4. True or False: In a Jupyter Notebook, Markdown Cells are used to execute Python code. Explain why.
